6.3. Parking

There are several car parks in Ashford, for full information regarding Town Centre Parking please visit http://www.ashford.gov.uk/transport_and_streets/parking.aspx. Please park at car parks P6 and P4, detailed on the below map, when space is available. Parking is also available for smaller vehicles in the vicarage carpark, the rep will advise on the day of a show.

6.4. Local Map - Ashford town centre

7. INTERNAL ACCESS AND FACILITIES

There is no Shower facility at the Venue

7.1. Load In/Out

Load in is through the south wing and straight into the church. Load out is through the south wing door due to licensing. The church is situated in a residential location so care must be taken not to make excessive noise when loading out equipment at the end of the night.

Note: Extra equipment, screens, backdrops etc. that are brought in needs to be risk assessed. St Mary's Church can provide a basic assessment.

7.2. Stage/ Equipment Information

There is a permanent wooden dais platform that measures approx 200mm in height.

Portable staging units can be provided and set up on the dais if required.

Additional stage furniture may be provided, e.g. tables, armless chairs, etc.

A small upright piano of limited quality is available. Please advise as soon as possible if this is required to arrange tuning.

Please advise on requirements for all of the above at least four weeks prior to the show.

7.3. Stage Dimensions

Total stage area can vary:

- Working Depth: 600mm (with dias 800mm)
- Working Width: 9m (max)
- Working Length: 11m (max)

7.4. Equipment storage

Flight cases and equipment can be stored behind the stage in the South Crypt. Wherever possible it is advisable for acts to kit share, there is not enough storage space for three drum kits etc.

No secure overnight equipment storage is available. If you urgently need to collect post-show please speak with production@revelationashford.co.uk a minimum of 48hours before the show between office hours (10am – 5pm) to organise options.

7.5. Recording

To arrange a recording please contact production@revelationashford.co.uk

7.6. Photography

- In-house photography will take place to aid further promotion of the Event and the Venue and be shared through local media partners, social media and on the Revelation website.
- If the Artist subsequently uses any of the material, the photographer must be credited with the image.
- Public Notices are placed within the venue should photography taking place.
- Please advise of any restrictions the Artist may impose prior to the event.

7.7. Merchandise Fee

There is no merchandise fee to be paid. Please contact Production if you would like someone to sell merchandise on your behalf at £40 per person

7.8. Dressing Room & Facilities

- A good size dressing room is available backstage with private toilets- access to the vestry is required through this room.
- Access to the stage from the dressing room is from backstage
- No showers – there are plenty of local hotels near the Church where day rooms can be hired.

8. SOUND & LIGHTING

8.1. Installed sound system

Loudspeakers:

The main church areas are covered for speech and full-range music reproduction using a Bose system divided into zones which can be switched in or out:

- Nave – 6 x MA12 compact line arrays, one pair stacked on the columns in front of stage and one pair mounted on walls to side of stage with 3° downtilt. 2 x MB24 sub-bass loudspeakers in front corners of north and south aisles.
- Gallery – 10 x Bose 402 loudspeakers
- Chancel – 2 x Bose 402 loudspeakers

Control is via two Bose CC64 panels, one mounted in front of the vicar's stall on the south side of the chancel, and one mounted in the audio rack upstairs in the gallery.

Loudspeaker zones can be selected and levels for input channels adjusted. The system is switched on/off by the isolator on the left side of the gallery console.

Inputs:

- Lapel radio mic 1 – Sennheiser EV 300 with ME2 capsule, channel 38
 - Lapel radio mic 2 – Sennheiser EV 300 with ME2 capsule, channel 38
 - Hand-held radio mic – Sennheiser EV 335 with dynamic cardioid capsule, channel 38
 - Gooseneck mic on stand – Audio Technica ES935 hypercardioid (can be connected to left or right floor box on front of dais)
 - Gooseneck mic on pulpit – Audio Technica ES935 hypercardioid
 - CD player Tascam CD-200
 - Audio from all video sources switched via Kramer VP728
 - Input from external mixer via female XLR tails at gallery console and under trap in floor at downstairs FOH position
 - 4 x Audio-technica ES933C cable microphones hanging above choir stalls in chancel
- Other outputs:

Induction loops cover both the chancel and nave / gallery areas. There is an output to a Tascam CDRW900 Slot Load CD Recorder.

8.2. Sound & lighting for larger concerts

Mixing console:

- Yamaha LS9-32 digital desk
- Audio Technica ATHM40 Headphones
- Littlelite dimmable lamp on weighed base
- Tascam CD player with mp3 playback

Speakers & Monitors:

- 2 x Meyer USW-1P powered subs
- 2 x Meyer UPA-1P powered tops

- 2 x K&M speaker stands
- 4 x d&b Max 12 monitors
- 2 x d&b M6 monitors
- 3 x d&b D6 monitor amps

Multicores:

- 1 x 32 way installed multicore sends from stage to FOH position, looped through to gallery, + stagebox with monitor splits
- 1 x 8 way installed multicore returns from stage to FOH position, looped through to gallery, + stagebox.
- 1 x 10m multicore with stagebox, 10 sends, 6 returns

All multicore connectors are XLR

Microphones and DI boxes:

- 6 x Shure SM58
- 4 x Shure SM57
- 4 x AKG C391B condenser mics.
- 4 x Sennheiser e604 clip-on mics.
- 1 x Sennheiser e906
- 1 x Shure Beta 52a BD mic.
- 1 x Shure Beta 91a BD mic.
- 4 x BSS active DI boxes
- 2 x EMO passive DI, single
- 2 x EMO passive DI, dual

Microphone stands, all K&M:

- 2 x tall boom stands
- 4 x boom stands
- 4 x telescopic boom stands
- 6 x low boom stands

Cables:

- All necessary equipment power leads
- A range of mains distribution and extension cables
- Large selection of microphone cables
- Signal and patch cables

Lighting:

- A pre-wired lighting grid is installed in the knave area consisting of the following.
 - 2 x 12 channel 10amp Chilli 1210i Dimmer packs hardwired to following:
 - 6 channels to SL bar with 3 x Chauvet ColoRADO PAR Quad 18 LED PAR
 - 6 channels to SR bar with 3 x Chauvet ColoRADO PAR Quad 18 LED PAR
 - 6 channels to Advance bar with 4 x Source Four 575W PAR
 - 6 channels to Rear bar with 6 x Source Four 575W Zoom PROFILE
- The Rear bar is also rigged with 2 x Chauvet Rogue R2X LED Spot
- The lighting rig above, including the dimmers, are powered from their own dedicated 3 phase power supply, accessible within a service cupboard on stairs to lighting gallery.
- Please note due to the height of the lighting bars, they are not accessible for adjusting the existing lanterns or adding additional lanterns.
- Control - the venue comes equipped with a Zero 88 Jester 12 ML lighting console which gives basic control and programming capabilities. The lighting console can be operated upstairs from the gallery or at the rear of the nave adjacent to the sound operator if required.
- There is a DMX 5 pin out socket situated in floor box SR rear, and the venue has a 5 channel DMX splitter (all inputs / outputs are 5 & 3 pin DMX)
- The venue has a selection of DMX LED coloured lanterns that can be used.
 - 3 x RGB LED Batterns used to up-light pillars SL & SR along with backcloth.
 - 10 x RGBA Beamz BT310 LED PAR used for backlighting stage - pre-rigged on motorized bar at rear of stage (**see section 8.5 Drapes**)
 - 2 x LED Followspots (Dimming and colour DMX controllable)
 - 2 x LED PARs with floor stands
- Selection of power (15amp, 13amp) and DMX cables.
- A portable 6 channel Zero 88 Beta dimmer pack is available along with 32 amp plug and there is a 25 Meter 32amp power cable to connect to the 32amp supply (see section 8.3 Power Supplies)

Other outputs:

Induction loops cover both the chancel and nave / gallery areas. There is an output to a Tascam CDRW900 Slot Load CD Recorder.

8.3. Power supplies

Supplies for temporary equipment are provided behind the organ, adjacent to the vestry. Cable run to the back of the stage is 25m.

- 3 phase 63A outlet (red, 5pin)
- Single phase 32A outlet (blue, 3pin)

8.4. Video

A 16:9 rear projection screen lowers on steel wires from a truss above the crossing. A Christie LW650 projector rises on a lift in the top of the rood screen. WXGA resolution, 6,500 Ansi lumens.

Control for both the screen and projector are on button panels at the top of the video rack, on the right hand side of the gallery console. An RF remote control for the screen is provided in addition to the hard-wired buttons.

Input selection is via the same button panels and both video and audio signals are switched by a Kramer VP728 scaler which will accept a wide range of resolutions. Inputs are as follows:

- VGA input on flying lead in gallery console
- VGA inputs in floor traps in front of dais, left and right.
- DVD player in video rack - Denon DN-V110P

8.5. Drapes

A motorised bar has been installed behind the arch at the back of the stage area. The length of the bar is 4480mm and it can carry a maximum load of 50Kgs. A black wool serge drape is provided which can be attached to the bar for performances. Drop is 9m.

The bar is raised and lowered using a grey key switch on a flying lead which connects to a six pin XLR in the small trap at the back of the stage, just to the north of the chancel arch.

Drapes are also provided for the side aisles, behind the pulpit steps on the south side and the corresponding position on the north.

8.6. Blackouts

Blackout facility is available on the lower part of the church windows only. Please specify if you require these in place for your performance.

9. GENERAL DETAILS

9.1. Catering rider

Headliner: we will provide everything we can within budget; the total drinks agreed will be in the Dressing Room throughout the night. It is the responsibility of the artists and tour manager to distribute these as no extras can be given unless bought by the tour manager.

9.2. Passes

The Promoter's rep will provide wristbands to be worn by all the members in the touring party; tour laminates are not valid.

9.3. Towels

The Promoter will provide towels; any missing towels will need to be accounted for within the costs of the show.
